Leghorne, October 29. N. S.

THE *Bonadventure* arrived here this week from *Moscovy*; and two days before she came in, took a French Vessel laden with Corn. We have Advice that 4 French Men of War are lately sailed from *Thoulon*, to cruise.

Venice, Novemb. 2. The several Reports we have had of an Engagement between the Venetian and Ottoman Fleets, prove at last to have had no other Foundation, than a Rencounter between 5 or 6 Venetian Ships, with the like number of Turks; and the two Fleets appearing afterwards in sight of each other, in the Waters of *Andros*; but the Captain-Bassa *Mezzomorto* avoided a Battel, and retired towards *Scio*: In the Fight between the Ships above-mentioned, the Turks are said to have lost 7 or 800 Men, and the Venetians not above 200; and that one of the Enemy's Ships, called *Sultanes*, was so shattered, that she sunk before she could get into Harbour: This Account comes by the Pope's and Maltese Galleys, who arrived at *Corfou* the 19th of the last month, in their Return home, having left the Venetian Fleet in the *Archipelago*, where the Captain-General *Molino* intended to continue for some time longer: One of the Pope's Galleys had the Misfortune to be cast away in bad Weather, near Cape *Coloma*, and 300 Men that were on Board are lost, with their chief Officers.

Milan, Octob. 31. The German Troops having received the greatest part of the first 100000 Pistoles for Winter-Quarters, several Regiments, with the Artillery, are already marched through the Territories of the Republick of *Venice*, towards *Tyrol*; and the rest are preparing to follow, but 'twill be the middle of the next month before they have all left this Country.

Turin, Novemb. 3. The Mareschal *Catinat* continues still in the Camp at *Candia*; but most of the Troops are already marched away towards the Frontiers of *France*, and the rest will do the like so soon as all the Germans have quitted the *Milanese*. There are now 10 Battalions constantly employed in demolishing the Fortifications of the Town of *Pigneról*; but the French have not yet begun to work on the demolishing of the Cittadel, and hitherto shew no Intention of going about it.

Warsaw, Novemb. 3. The Tartars have made great Spoil, in the Country of *Volhynia*, and carried many of the Inhabitants into Slavery: The Confederated Forces of *Poland*, that are encamped near *Lemberg*, sent out a strong Detachment to pursue them; who fell on their Rear, killed several Tartars, and recovered divers Prisoners. The Crown-General is now at *Lemberg*, and has sent to the said Confederated Forces, to desire they will appoint Deputies to confer with him, for adjusting their Pretentions. The Confederate Forces in *Lithuania* continue to encamp together near *Bresc*; and Prince *Sapiha*, Great General of that Country, assembles all the Force he can to suppress them. The Mis-understanding continues between the Queen and Prince *James*; the Endeavours that have been used to reconcile them proving hitherto ineffectual. The French Ambassador here labours all he can to promote the Interests of the Prince of *Conty*; and has lately received from *France* Bills of Exchange for 150000 Crowns.

Vienna, Novemb. 7. The Advices from *Hungary* inform us, That a Body of the Imperial Troops, who served in the main Army this Summer, were come to *Baya*, and from thence would continue their March towards *Buda*, their Winter-Quarters being assigned in the Country thereabouts. General *Rabutin*, who commands in *Transilvania*, has been to visit all the considerable Garisons in that Principality, and has posted a sufficient Number of Troops on the Frontiers, to secure the Country against the Enemy's Excursions during the Winter. The Count *de Herbersteim*, who commands at *Caransebes*, sent out a Party lately, who passed the *Danube*, and brought back several Prisoners, and a good Booty of Cattel: And another Party from the same Garison has done the Enemy much Mischief in the Neighbourhood of *Temesmeswaer*: The Turks have lately re-inforced the Garison of *Temeswaer*, which now consists of 5000 Foot, and 700 Horse. The Letters from *Turkey* say, that at *Constantinople* they begin already to feel the Effects of the Taking of *Asof* by the Moscovites, which has opened a Passage to the Cossacks to enter into the *Black Sea*, where they commit great Depredations, and have taken divers small Vessels going with Provisions to *Constantinople*. The States of *Hungary* are assembled at *Buda*, to regulate the Winter-Quarters for the Imperial Forces. The Officers are all ordered to recruit their Troops.

Francfort, Novemb. 14. The States of *Franconia* are going to meet at *Nuremberg*; and the Count *de Hohenloo*, the Emperor's Minister, has Orders to repair thither, to consult with them about the Preparations for the next Campagne. Prince *Lewis* of *Baden* is still at *Guntzburg*, and has not yet fixed any time for his Journey to *Vienna*.

Cologne, Novemb. 16. The Quarters are setled for the *Brandenburg* Troops that are to Winter in this Dioceses. New Levies are making in these Parts, for the Service of the Republick of *Venice*.

Paris, Novemb. 16. The French King has named Monsieur *Courtin*, and Monsieur *Harley*, both Counsellors of State, to be his Plenipotentiaries at the Treaty of a general Peace, though the place of Congress is not yet agreed on. The Mareschal *de Villeroy* is arrived from *Flanders*; and the Mareschal
